SUMMARY

I am a technically proficient professional, currently working as a **Trainee at Cloudinfosoft**, where I am gaining hands-on experience in **.NET development, ASP.NET Core MVC, Web API, and SQL**. With a background as a **Technical Recruiter**, I bring a unique perspective that combines technical insight with strong communication and problem-solving skills.

WORK EXPERIENCE

Trainee Developer, CloudInfoSoft, Vadodara

Aug 2025 - Present

- During my internship, I gained hands-on experience with ASP.NET Core MVC and explored the following concepts:
 - ASP.NET Core MVC Architecture – Understanding the flow of Model, View, and Controller in building structured web applications.
 - Code First & Database First approaches for database integration.
 - Entity Framework (EF Core) for ORM and database operations.
 - Migrations to handle schema changes efficiently.
 - SQL for database queries and backend data management.
 - Authentication & Authorization – Exploring user identity and role management for secure applications.
- This internship gave me a strong foundation in building structured web applications using MVC architecture.

Technical Recruiter, Rang Technologies, Vadodara

Mar 2025 – Jul 2025

- Specialized in sourcing, screening, and placing qualified candidates for IT roles using Boolean search techniques across platforms like LinkedIn, Ceipal.
- Conducted high-volume cold calling and candidate outreach to build and maintain a strong talent pipeline.
- Effectively managed the recruitment lifecycle, including job posting, resume screening and offer negotiation.
- Built and nurtured long-term relationships with candidates to ensure positive experiences and successful placements.
- Collaborated with hiring managers to understand technical requirements and deliver candidates aligned with organizational goals.
- Worked with clients like Intuitive Surgical Inc., Yahoo, BMW, Futurewei Technologies, and LA County.

PROJECTS

Expense Tracker Pro – ASP.NET Core MVC using C# & Syncfusion

- Developed a full-stack expense management system to track, analyze, and visualize personal and business expenses.
- Implemented income/expense categorization, and transaction history
- Integrated Syncfusion UI components (charts, grids, dashboards) to display real-time financial insights.
- Enabled user authentication and session management for secure access.
- Used SQL Server for storing transaction data, categories, and user details with optimized queries.
- Designed a responsive UI with HTML, CSS, Bootstrap, and handled backend logic with ASP.NET Core MVC & C#.

Key Skills: ASP.NET Core MVC, C#, SQL Server, Syncfusion, Authentication, CRUD Operations, Data Visualization, Bootstrap

Employee Management System – ASP.NET Core MVC using C#

- Built a role-based employee management platform for Admin, HR, and Employee roles with ASP.NET Core Identity authentication.
- Admin role: Add/Edit/Delete employees, assign roles, projects, monitor activity, and manage payroll/attendance records.
- Employee role: Profile management, see the projects that have been assigned and can write notes.
- Implemented role-based access control (RBAC) using ASP.NET Core Authorization policies.
- Designed structured database with SQL Server to store employee records, attendance, and salary details.
- Created a clean and user-friendly interface using HTML, CSS, Bootstrap, ensuring responsive and professional design.

Key Skills: ASP.NET Core MVC, C#, SQL Server, ASP.NET Core Identity, Role-Based Authentication, CRUD Operations, Bootstrap

Coffee Shop Sales

- Analyzed historical sales data from a coffee shop to identify sales trends, peak business hours, and top-performing products.
- Performed data cleaning and preprocessing using Pandas and NumPy to ensure high-quality, structured datasets.
- Conducted exploratory data analysis (EDA) to uncover insights related to product demand, seasonal sales variations, and customer purchasing behavior.

Key Skills: Python, Sales Data Analysis, EDA, Data Cleaning, Pandas, NumPy, Seaborn, Matplotlib, Business Insights

ADDITIONAL INFORMATION

- **Technical Skills:** Python, SQL, C#, ASP.NET with MVC, Excel, NumPy, Pandas, Matplotlib, Word
 - **Languages:** English, Hindi, Gujarati, Marathi
-
